

REACH Declaration

REACH is the European Community Regulation on chemicals and their safe use (EC 1907/2006). It deals with the Registration, Evaluation, Authorization and Restriction of Chemical substances. Concerning article 33 of REACH we will inform you of the following:

The company Schaefer Elektronik GmbH is manufacture of power supplies, thus in the sense of REACH we are called "downstream user". The products we supply to you are solely non-chemical products (goods). Moreover and under normal and reasonably foreseeable circumstances of application, the goods supplied to you shall not release any substance. For that, the company Schaefer Elektronik GmbH is neither obligatory for registration nor for creation of material safety data sheet (MSDS).

The current Candidate List, release 12. January 2017, according to article 59 (10) of regulation EC 1907/2006 is published (see webpage of European Agency for Chemicals 'ECHA' <http://echa.europa.eu/web/guest/candidate-list-table>)

The products of Schaefer Elektronik GmbH as well as packing contained no substances corresponding to Candidate List (as from a content of >0.1%).

Independent of that fact, we are intensively pursuing the realisation of REACH on the part of our suppliers. We do that in our own interest and in order to guarantee a high level of product safety for our customers. WE are in close contact with our suppliers of chemistry and prepared material and will implement the pre-registration and / or later registration of the relevant materials in REACH respectively in our process of supplier qualification.

Schaefer Elektronik GmbH company management

Hansjürgen Schäfer
